1. List five sources that might provide useful material for your Major Paper.
   a. Three of the sources may deal with the subject of college majors and careers in a general way. You must have at least one source each about the two specific majors that you will be writing about.
   b. Sources must be listed in correct MLA form. There are instructions for MLA formatting in our textbook and also online [here](#).

2. After each of the five sources, write 100+ words describing the contents of the source and how the source might be useful for your paper. If you quote from any of your sources, be sure to put the quotations inside quotation marks.
